(54) Title: METHOD AND SYSTEM FOR MONITORING LOCATION OF MINING VEHICLE

(57) Abstract: The invention relates to a method and a system  
for monitoring the location of a mining vehicle in a mine. The  
first mine section (18) is provided with a wireless network (10)  
for data transmission between the mining vehicle (1, 1a, 1b) and  
the mine control system (11). In addition, the network is used  
for positioning. In the second mine section (21), the location  
is determined by means of measuring devices provided in the  
mining vehicle.
